## Importance of the Austrian Bicycle Travel Analysis for the tourism sector

- **Informations about Cyclists** using cycling infrastructure, resp. About target group of the cycling tourism economy, e.g.:
  - Basic informations for marketing and communication
  - Basic information for touristic product design and investments
  - Documentation of importance of cycling and creation of value
- **Synergies of the project with on site – interrogations and frequency measurements**
- **International exchange of data** (benchmarking)
- **Standardised possibility for guests to give a feedback**
